

**Britta Jonsson-Lindvall**, Treehotel, Harads, Sweden

«I am together with my husband founder of treehotel.

I am a nurse from the beginning. After 25 years in the profession, I started working with local development in the countryside, as project manager. I have worked in Russia for 3 years to build the elderly care in the city of Apatity, a very successful project. Also worked as project manager for the county labor board to interested men for education in care, school and care. In 2004 I started my guest house which led to the treehotel. I ran 3 businesses for a few years, a funeral home, a youth hostel and Brittass guesthouse.

I have always educated/trained myself continuously in the various industries I have worked in.»
